

Having Issues Logging In?

***Please note that to be eligible to login to the Plan website, you must be enrolled in the Deferred Compensation Plan and have a balance in your Deferred Compensation account.**

Which of the below best describes your circumstance?

1. I wish to enroll in the Deferred Compensation Plan and begin contributions.

Click "**Enroll Now**" on the homepage of www.MyFloridaDeferredComp.com. Once you enroll in the Plan and make your first contribution into the Plan, you will be able to login as a first-time user.

2. I wish to increase my contribution into my Deferred Compensation account.

Click "**Increase Contributions**" on the homepage of www.MyFloridaDeferredComp.com. While you do not need to login to increase your contribution, you may resolve your login issue by contacting the Bureau of Deferred Compensation (see contact information below).

3. I recently enrolled in the Deferred Compensation Plan and I am unable to login as a first-time user.

This is probably because you have not made your first contribution into the Plan and you do not have a balance in the Plan yet. Please note that you will not make your first contribution for several weeks following your enrollment. If you believe you may have made your first contribution already and are therefore eligible to login, contact the Bureau of Deferred Compensation (see contact information below).

4. I have a balance in my Deferred Compensation account and the website is not accepting my username and password.

Please note that your username and password are case-sensitive. If the issue persists, click [Forgot Username or Password](#) or contact the Bureau of Deferred Compensation (see contact information below).

5. I wish to find more information on the Plan.

You are not eligible to login to the website if you do not have a Deferred Compensation account. However, all sources of Plan information including brochures, frequently asked questions, Quarterly Performance Report, Enrollment Form, and Increase Contributions Form are available on the Plan website and you do not need to login in to view this information. If you would like to speak with a Deferred Compensation representative you may do so via live chat or phone.
