

STABILIZE YOUR FINANCIAL FUTURE!

Your Florida Retirement System and Social Security savings will be there for you when you retire. However, these programs will not provide enough income for you in retirement. **Bridge your savings gap with the Deferred Compensation Plan**, a pre-tax retirement savings plan that will stabilize your financial future.

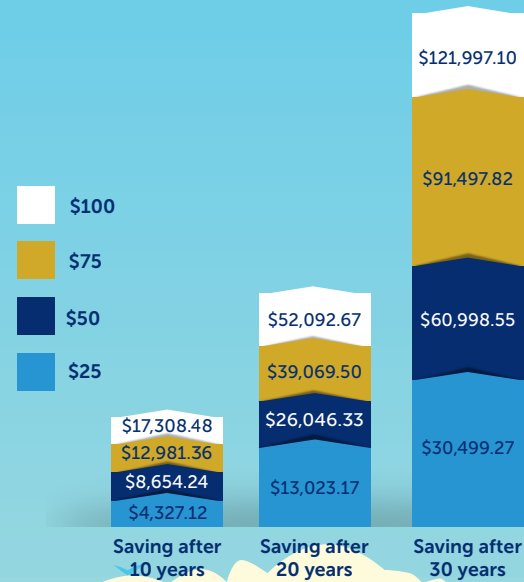

Top 3 reasons to save with the Deferred Compensation Plan

Diverse – Excellent investment options including Target Date Funds, mutual funds, and fixed rate funds guaranteeing up to a 3.5% return

Beneficial – pre-tax savings lowers taxable income

Affordable – No administrative, maintenance, or commission fees

The more you save, the brighter your future becomes...

This chart shows how making contributions to your Deferred Compensation Plan can dramatically boost your retirement savings. This example compares an investor's returns over 10, 20, and 30 years at different contribution rates.

This chart is for illustrative purposes only and not meant to represent the performance of any specific investment option. The scenario assumes monthly payroll contributions, a 7% annual rate of return and reinvestment of earnings, with no withdrawals. Rates of return will vary.
